REDACTED CITIZEN:

Good morning! I hope your day has started off well. I am not sure what you are referring to as I confirmed this property is not docketed for any requests at the June 15th PC hearing, nor have we received any sort of request for this property. I believe you are talking about [Tax Map Parcel 9-37 \(GPIN M08-2128-1456\)](#), but not sure where the idea that anything related to this property will be considered by the PC/BOS. It was formerly owned by Broyhill Foundation Inc., and is currently owned by Old Virginia Land and Timber, LLC. Unfortunately there seems to be a lot of misinformation going around in the county right now, and I really appreciate you reaching out to me directly to clarify.

Warmest regards,
Amy

Welcome back. I understand you wanting to get a bit more info – and we hope to supplement that during our meeting. We can meet wherever is convenient for you. I'll await to hear from you. .

Until then, take care,
REDACTED CITIZEN

Hi, REDACTED CITIZEN:

Thank you for your email. I am not familiar with the property you sight in your email, but please allow me to do some research on this over the next few days. Once I conclude my research, I will get back to you to set up a meeting or phone call.

Warmest regards,
Amy

Amy M. Pearson

Copy of my text message sent to you this morning.

First Amy, thank you for reaching out to me while you are out of town. Let me verbalize the background of our request. A property being referred to as the Broyhill property, a 922+ acre parcel in district one, will be on both the planning commission in June and the board of supervisor in July meetings. A lot of research has been done on this issue which shows actions taken at those meetings, could have significant impact across all districts of new Kent County. We're requesting a face-to-face meeting to go over the baffling and complex details behind this property and pending ownership request. I look forward to meeting with you and providing more in-depth details and thank you for your support to our district.
