Mr. Hathaway,

Here is just the very latest social media posting regarding the dump trucks traveling to/from Thomas Evelyn's property - the Former Broyhill Property - at Quaker and Quinton. To date, there have been MANY posting regarding the dump trucks on MANY facebook pages by MANY citizens. This posting has only been up one hour . . . there will be many, many more comments before the NEXT posting. Honestly, I do not understand why this continues to be allowed. When/If a school bus full of children is in an accident with any of these dump trucks, the bereaved will file lawsuits against the county and those in positions of authority who've repeatedly turned a blind eye to this grossly unsafe situation will have to answer as to why they did nothing. This is truly pathetic.

Respectfully.

Thanks to a PUNK member who submitted this photo today of a dump truck reportedly heading back from the "former Broyhill" property — owned by Old Virginia Land & Timber and also identified as the site of New Kent's proposed water treatment plant.

We're told this is just one of many examples residents have observed of dump trucks traveling to or from the property without a visible license plate.

This photo appears to show no license plate visible on the rear of the truck.

If you're seeing similar activity, feel free to send photos — along with the date, time and location where they were taken.

I saw Two today without license plates on Rt 249

One blew through a stopped school bus on South Quaker Wednesday at 2:50. Thank God I don't have kids that ride near here.

Some travel with the load uncovered. Terrible. Call state police

Someone put up the "Bat Signal "!

Isn't this illegal?

[Cheryl Lynn](#)

[Jeannine Uzel](#) it is an offense for which you can get a ticket but I'm sure they are turning a blind eye. I would suggest that if it can be proven that many trucks fail to display tags, someone should contact NKCS and advise for them to investigate. A lone truck is probably going to say the tag fell off but would be interesting to see if it's a pattern.

[Cheryl Lynn](#) 5 out of about 15 trucks from Wendy's to the site just a bit ago. They are rolling in and out quick today. ☐

[Cheryl Lynn](#)

[Amanda Ann](#) that's highly suspicious that you observed five. Interesting.

[Cheryl Lynn](#) saw at least 5 leaving this site with no visible rear plate in the last 15 min. Must be out of state bc Virginia has no plate exemption law for dump trucks. It is obvious these drivers do not care about our roads, safety, or school buses but again NK planning department, sheriff's office, and BOS also do not care bc SOMEONE gets to continue making a dollar off of Henrico's data center construction
